

The ACHA Foundation was established in 1993 to assist, promote and further enhance the services provided by our hospitals through the provision of resources for medical equipment, facility upgrades and other programs above those covered by operational budgets.

Workplace Giving is a simple, easy and tax effective way for any employee to donate to charities via automated payroll deductions. A summary of all payroll donation deductions is provided via MyGov at the end of each financial year.

Giving to the ACHA Foundation provides community members, grateful patients and their families and friends with a unique opportunity to support ACHA’s mission to provide an integrated range of quality and consumer centred medical, rehabilitation, surgical and related health services in a safe and caring environment.

Gifts to the ACHA Foundation will help support the future of our hospitals for generations to come and will assist ACHA to maintain a leading role in South Australian private health care for the years ahead.
